### How to Run Sheet (Final Questionnaire Project)

**Program:** This program was created to poll a group of “users” of a series of 10 random questions. At the end of the Program a percentage will be shown to the voters on how many people voted yes and how many people voted no. UPDATE: **Code has been changed so you can just click run and answer the question after it's done it will show you the results from when your vote is counted.**

**How to Run:** To begin please press run. After the program has started you will be given a list of instructions asking how many voters/users there are. After that you may answer the questions with either yes or no. (CAPS will not matter).

**Results:** The results screen will display the percentage and the questions
